“ Al was a caring man with so much knowledge to impart to his loved ones. I am thinking of him and appreciating his efforts to educate me on so many areas of life. I still carry his name, as he asked me not to change it.

Beth Joseph, wife of 15 years.

“ To Al's Family - I was a part of your father's life for over a year. I believe I made him very happy and he made my life fuller. We shared numerous games of chess, watched westerns and I fixed dinner for us often. We shared the same church where we worshipped and sang. He was strong in his belief and his love of our Father. I know he loved his family and would often talk about you all affectionately and with great pride. He talked to me of his various occupations as well as his service in the Air Force and Police force. I was proud to be his girlfriend and to have known him. You and your family can be proud as well, that you were related and loved by him.

Bless you all...Pauline

Hello... my name is John Joseph I was reminiscing about my step dad and decided to Google his name... is this the same Albert Joseph who grew up in Massachusetts and lived in Northern California?

“ With deep love, fond memories and shared sympathy, I offer my condolence to the family of Albert Joseph Jr. I feel genuinely blessed to have the vibrant impressive joy of a child in knowing my cousin. From skating on bogs, to picnics and family gathering and WORK. To imagine him returning to Rochester in his dress uniform and off with family to live life. Odd that I lived in the same state for the last 35yrs and never connected. Yet never having thoughts of separation for a child's love is forever. The twinkle of his eyes, like God's lightening of gold will always light my soul. Rest well dear cuz! ... You ARE walking on sunshine.
