“ I remember when we had been married a little over a year and had Michael, Either Nancy or Stella was the same age as Mike. We lived in Pevely, Mo and both Uncle John and Bob worked at Silica sand. We would pack up the kids and go fishing all the time. I was always so in awe as to how Aunt Betty could take care of those kids and do everything anyone could do. She was a a good example of working with what she had and never let anything stop her from doing what she wanted to do. We enjoyed our time up there and living close to them. Good Memories.
