“ In Canada Bonnie spoke about the Jones town .and hearing this visibly beautiful woman speak from the heart moved me so deeply .It changed not only my life but I had a copy of the St. Catharine's church sermon and others are still enriched from her encounter with J.Jones .God bless her family still her on earth.

CC

Bonnie introduced herself to me in San Jose, California, as I recall in 1985 when I was speaking about my book *The HIDDEN DANGERS OF THE RAINBOW*, about the New Age Movement. A couple of days later, I had lunch with her and her biological parents, Assembly of God ministers. We had some contact over the years and a mutual friend who became a personal physician, Dr. Stanley Monteith. I lost contact with her, but tonight found much on the internet. I did not know she had written a book about Jonestown, but tonight ordered one from Amazon. May she rest in peace -- she was a wonderful lady who came through so very much.
