“ I've been thinking for hours of the perfect memory I had with my aunt and I finally realized that my favorite memory is a new one that my uncle Shug , Brenda's beloved soulmate shared with me. At a young age it became evident to my family that I was gay. Most weren't so pleased with this and In fact talked behind my back. My aunt Brenda loved and excepted me never paying any attention to what others would say. She also had told my uncle she was worried for me. The fact that she loved me for who I was and thought of me even to worry when many people couldn't speaks to how far ahead hear heart was than most. I love you aunt Brenda , I truly wish I had known how much you loved me. I know now and your love I will cherish forever.
