

## Dr. Delmont Emery

April 28, 1926 - August 25, 2016

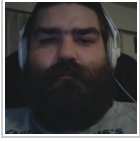

Delmont S. Emery, M.D., went to meet God at the age of 90 on August 25, 2016. Bear, as he was known to his family, died at home from long standing illness surrounded by his wife and children.

Del was born April 28, 1926 in Sacramento, CA and, having been inspired by the life of Dr. Livingston, graduated from Loma Linda Medical School. He was a very insightful and well-loved physician performing the art as well as the science of urology in Yuba City for 25 years and general practice in Penn Valley for 16 years, before retiring in 2001.

He was preceded in death by 1 son. He is survived by Barbara Emery, his wife of 43 years, as well as 3 siblings, 6 children and 12 grandchildren. Del considered it important to make sure that he took care of his family by providing an education for them so that they could take care of themselves and their families. He was able to do this for all 7 children who are a great source of pride for him.

A family memorial will be held at a later date yet to be determined.
